### Description

The Tiger Intercom System Headset is heavy duty waterproof and suited for daily use. This includes high performance, racing, military, law enforcement, homeland security and fire/rescue applications. These headsets are available with a variety of options to create custom configurations and to operate to high performance and reliability standards.

The T-61530-10 Bluetooth Wireless over the head style dual ear headset is one of several Bluetooth Wireless headsets offered by Tiger Performance configured for use with their mating transceivers and most Intercom systems. This headset provides hands free wireless, voice activated and high noise cancelling communications.

These headsets also provide high comfort for long durations. Included is a flex boom microphone, an adjustable over-the head headband with comfort pad, attractive and durable, rubberized coated ear cups.

The T-61530-10 Bluetooth Wireless headset provide high quality and performance, comfort, durability and user friendly features. Also provided is a high level of hearing protection during a wide variety of high noise situations, while delivering many years of trouble free use making it a first choice for boat crew members.
