

## TIGER PERFORMANCE PRODUCTS, INC.

### Tigers Advanced Helmet Hear-Thru Tactical ANR and Tactical PNR

Experience complete situational awareness. With the Tiger tactical hear through feature you will now have volume adjustable super human surround sound stereo hearing while having complete impact noise protection with 82DbA noise suppression. This system is so effective that you will be able to hear people talking from long distance with your helmet on. For SAR and medical rescue ground or hoisting operations, when used with the Tiger wireless belt station you will be able to talk on the aircraft intercom or radio system and simultaneously talk to injured personal or anyone else without removing your helmet.

#### Features:

- Ear Cups, military grade flexible ear cups with vinyl or gel ear seals or memory foam soft ear cups
- Speakers, military grade PNR or ANR speakers
- Communication Cords, straight or coiled with many plug choices
- Low or high impedance, selectable low or high slide switch
- Microphones, mil spec M87A/AIC, M101A/AIC or Cobra flex or wire boom mics
- Hand controller, Tactical hear through on/off, Tactical hear thru volume control, ANR on/off & multi color LED
- Noise suppression, 82 DbA
- Clothing Clip, included
- Power Supply, 9 volt replaceable battery or optional rechargeable 9 volt lithium ion battery

### MSA Gallet Multi Role Aviation Helmets

#### Helicopter Crew, SAR, Medical Rescue and Jet Pilot Application

The MSA Gallet helmets are chosen around the world by military, law enforcement, medical rescue, firefighting SAR air, utilities, crop dusting, air racing and all other types of crew members because they are high performance, high quality, lightweight and comfortable. They are also designed to meet Multi role applications.

Tiger Performance has developed several additional features to enhance the multi Role capabilities of the MSA Gallet helmets

#### Helmet features:

- Listed in the US department of Interior ALSE Handbook as an approved helmet
- Excellent stability due to compact form fitment
- NVG compatible with removable ANVIS adapter and Tiger NVG quick release adapter
- Excellent NVG low center of gravity and stability
- Excellent side impact protection with either flexible rubber ear cups with vinyl or gel ear seals or soft memory foam ear cups
- No need for nape adjustment due to custom fit nape pads
- Full field of vision
- Comfort fit liner choices
- Tiger quick release chin strap
- Tiger see through Maxillo Faceshield with quick release hinged hardware, clear, smoke, amber, chrome or iridescent
- Compatible with oxygen masks, Tigers environmental filter mask or Tigers EBS mask
